

## Target audience for training

Queensland Centre for Mental Health Learning (Learning Centre) training is NOT limited to Queensland Health Mental Health Service staff only.

Training is accessible generally to anyone who has an interest, or involvement in some capacity, with people experiencing mental health problems.

Note: Understanding scope of practice and translatable skills as relevant to your role, experience and level of expertise is important and is discussed in face-to-face training. You can discuss this with our trainers on the day.

We are also happy to assist with course selection to align with your area of interest or role development.

### **Our target audience includes but is not limited to the following services:**
