

QC4 Supervisor

This two day workshop takes learners through the practical application of core supervisor competencies based on international best practice principles for the training of supervisors.

The core supervision practice competencies include:

- managing the supervisory process
- developing and maintaining the supervisory alliance
- fostering reflection on practice
- providing effective feedback, and
- evaluation.

The workshop introduces several tools that have been shown to be highly supportive of supervision practices for both the supervisee and supervisor.

Note: this course is a pre-requisite for those wishing to completed QC12 Supervising Supervisors.

Anticipated learning outcomes:

- identify cultural and practice considerations that affect suitability to provide supervision
- recognise the impact of culture and difference on supervision
- develop a Supervisory Working Alliance (SWA), including identifying tasks and goals for supervision
- apply the Three functions, Seven-eyed Process and SWA models to guide supervision practices
- apply reflective techniques that enhance practice capabilities in supervision
- use effective skills in providing confirmatory, observational and corrective feedback to supervisees
- distinguish when to use summative and formative supervision evaluation
- identify areas of strength and improvement in supervision using the Generic Supervision Assessment Tool (GSAT).
