

## QC30 – Multidisciplinary Team Review Note (Luke)

-For training purposes only-

 <p><b>Queensland Government</b> <b>Mental Health, Alcohol and Other Drugs Services</b> <b>Progress Note</b></p> <p>Facility: ...Community CYMHS .....</p>	<p>URN: .....</p> <p>Family name: Skywalker Given names: Luke Date of birth: 10/12/2003      Sex: M</p>			
<p><b>Multi-Disciplinary Team Review:</b> Luke Skywalker was reviewed at the CYMHS Care Review meeting to decide whether a V-RAM should be conducted.</p> <p><b>Relevant information:</b> Historical reactive violence and aggression towards mother and sister warranting accommodation change. Violence and aggression reportedly occurred in the context of limit setting and thwarted control of his environment. Mother's difficulty managing violence led to placement with maternal uncle. During this placement, Luke was reportedly exposed to illicit substance use (both witnessing and occasionally partaking) and suspected trauma/abuse. Following the placement, Luke demonstrated nightmares and hypervigilance. In the six months since returning from his placement, there has been an escalation in aggression and violence at school and at home; including a reportedly serious violent incident at school resulting in suspension. Other relevant information identified includes: disrupted attachment; poor interactions with peers (including distorted hostile attributions of other students' behaviour); empathy deficits; communication difficulties; pro-violence attitudes (Luke said he was willing to defend himself from others using physical force if required); and anti-social behaviour (truancy, interrupting class, bullying).</p> <p><b>Recommendation:</b> Administer V-RAM– assigned to [Tier 2 clinician name]. Develop Safety Plan regarding mother and sister. Identify factors precipitating recent serious violence incident at school, ongoing violence and aggression towards family members, and strengths/protective factors which maintain stability for Luke. Psychiatric review.</p>
