Instructions on how to access the software centre on your computer.
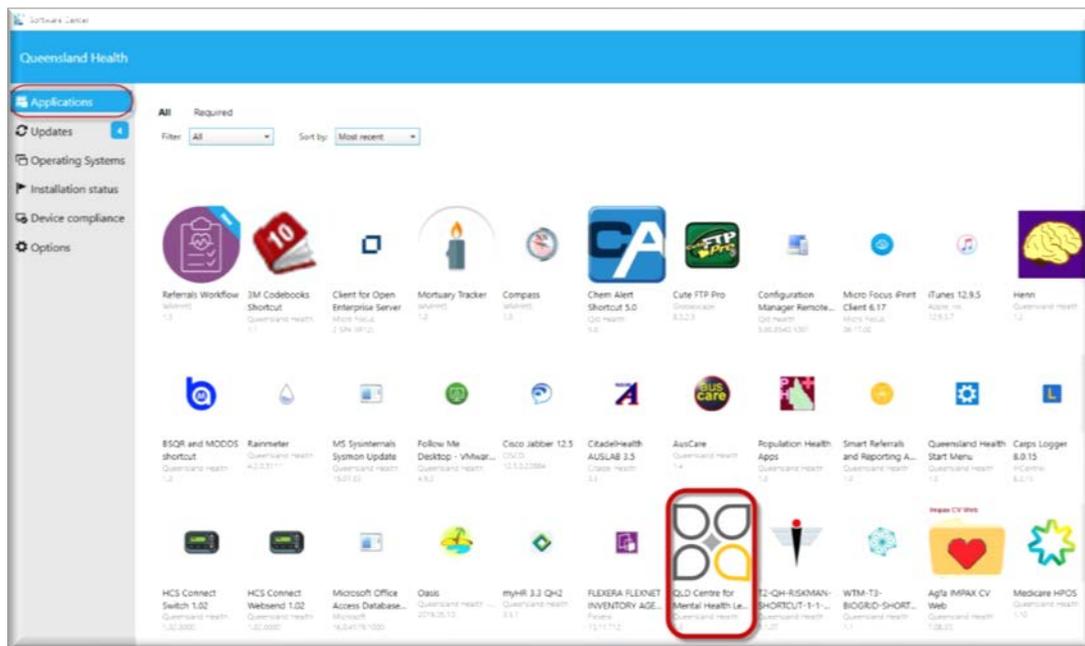

These instructions are for staff using Windows 10.

1. Click the **Windows** button far bottom left on the task bar.
2. Click the **software center** icon under the **QH Apps** heading.

3. Alternatively, the software center can be found under the **Microsoft system center** folder in the **start menu** programs list, or by typing **software center** into the search field from the start menu.

Once opened, a list of available applications are visible under the **applications** heading.

1. To install an application, browse or search for the desired application.
2. Click on the Learning Centre application.

3. Click the **install** button.

How to access Microsoft Edge on Windows 10

Via the task bar

1. Open the application by clicking the icon on the **task bar**.

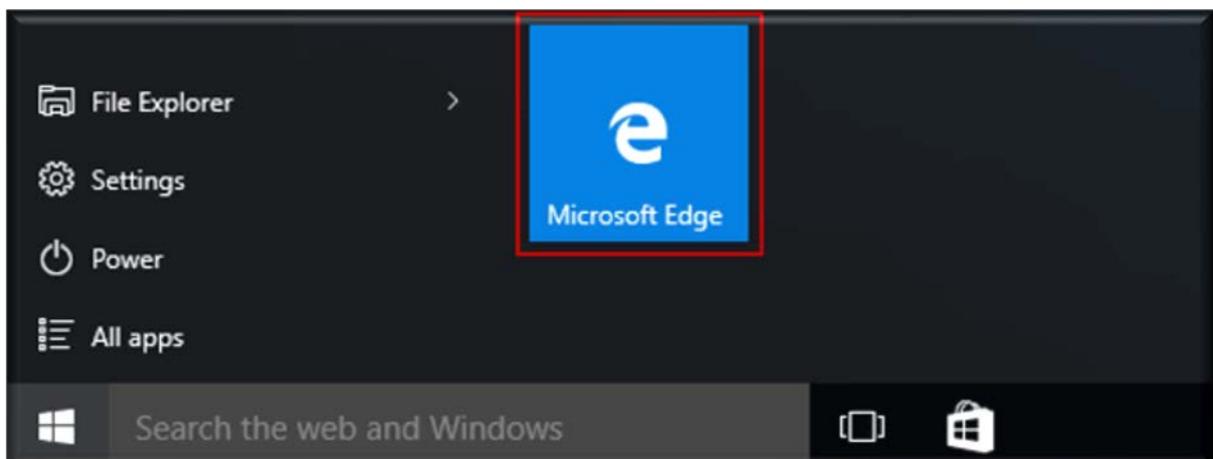

Via the Windows icon

1. Select the **Windows icon** far bottom left on the task bar.
2. Scroll down to the Microsoft Edge icon.

3. Click on the Microsoft Edge icon to open.

Via the start menu

1. Select the Windows icon far bottom left on the task bar.

Tip: If there isn't a tile named Microsoft Edge in the start menu, you can choose **All apps** and select **Microsoft Edge** in the list.

Via the search box

1. Type Microsoft Edge into the search box at the lower left of the task bar.

2. Select Microsoft Edge.
