Scene 1	
Tanya	You mob just have so many questions all the time!
Annabel (ED Clinician)	Thanks for your patience, I'll try and be as quick as I can. Let's go over the last couple of days. Can you take me through what's been happening?
Tanya	Yeah, I had a fight with one of the cousins I live with. They kept running my brother down, I was over-hearing it all so I asked them to stop. There are lots of us living in the house and seem to be fighting more and more!
Annabel	How did they react?
Tanya	Not good, we had an argument, mainly yelling at each other. I was waiting for my other cousins to step in but nobody did. So, I just went back to my room and started crying.
Annabel	Sounds really stressful! What happened next?
Tanya	I went back into my room and rang my mum. She couldn't come up straight away, and told me to stay away from my cousins, so I did. I only came out to use the bathroom.
Annabel	How is it getting some space?
Tanya	Crap. I didn't sleep very well and kept having bad dreams.
Annabel	So what did you do, for the rest of the day?
Tanya	Slept on and off, stayed in my room. I only came out in the afternoon to use Facebook to talk to my friend.
Annabel	Were your cousins around?
Tanya	A couple were and they said hello. I just spent an hour or so yarning with my friend online.
Annabel	Did that make you feel any better?
Tanya	No, not really, I just went to bed upset again... I hardly slept.
Annabel	Two nights without sleep wouldn't have been real good. When did mum arrive?
Tanya	She rocked up at like 8.30 the next morning! Apparently my cousins had yarned with her. One of those a-holes looked at my Facebook messages to my friend. Mum was worried about me and told me I had to come here today, and here I am.
Annabel	How often have you been thing about killing yourself over the last couple of days?
Tanya	I don't know.... Quite a lot....
Annabel	What were you thinking of doing?
