Training Package Evaluation Form

Unit 2.4 Suicide Risk Assessment and Safety Plans in Child and Youth Mental Health

Please complete this form and fax it to (07) 3832 5642, attention to Valda Dorries, Statewide Allied Health Professional Leader.

Clinician Details

Name: Phone No:.....

Position:..... Email:.....

CYMHS Team:..... Years in Current Position:.....

The following questions aim to assess your opinion about Unit 2.4 in the Transition to Child and Youth Mental Health Practice Core Skills Training Package. For each statement below, please tick the box that best describes the extent to which you agree or disagree with that statement.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
1. The Unit topic chosen was well matched with clinician learning needs					
2. The training objectives were clear					
3. The usefulness of content provided met clinicians expectations					
4. Training content provided was a good match for the skills needed at the clinician's CYMHS service					
5. The content and demonstrations provided on the DVD were informative					
6. The DVD and learning materials were of a high quality					
7. The associated learning materials were useful					
8. The additional learning materials were helpful					
9. There was an appropriate balance between theory and practice					
10. The practical case studies, activities and reflection exercises assisted learning					
11. The suggested assessment activities helped consolidate learning					
12. The <i>Record of Learning</i> provided a useful self/supervisor assisted assessment structure					
13. The Unit provided good opportunities for skill development					
14. The time required to complete the unit was reasonable and achievable					

1. What did you find most helpful about this particular unit?

2. Did you gain increased knowledge and skills in Suicide Risk Assessment and Safety Planning for CYMHS clients through completing the training and applying the assessment tasks? Explain.

3. Was the material relevant and easy to implement in your particular workplace?

4. Please identify the most helpful areas of knowledge you developed through the unit.

5. Please identify the most helpful skills you developed through completing this Unit.

6. Please suggest additional areas of knowledge or skills that you feel would have been important to have included in this unit.

7. Would you replace any sections of this unit as you found them unhelpful, redundant or inaccurate? If yes, please expand on your answer.

8. Other comments.

Evaluation/ Feedback Forms

Transition to Child and Youth Mental
Health Practice Core Skills Project 2008

Queensland
Government
Queensland Health

Evaluation/ Feedback Forms

At the end of each Unit, please make a copy (of the master copy) and complete the following evaluation/ feedback forms. Return them as per the instructions at the top of page 1. Please try to fill them out and return them as soon as the Unit is completed rather than waiting until the end of each Competency.

You will find Clinician and Supervisor Forms for each Unit. As the clinician, please take responsibility for those forms being returned. Your feedback is highly valued and much appreciated.

Thank you.

The following questions aim to assess your opinion about Unit 2.4 in the Transition to Child and Youth Mental Health Practice Core Skills Training Package. For each statement below, please tick the box that best describes the extent to which you agree or disagree with that statement.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
1. The Unit topic chosen was well matched with clinician learning needs					
2. The training objectives were clear					
3. The usefulness of content provided met supervisor expectations					
4. Training content provided was a good match for the skills needed at the clinician's CYMHS service					
5. The content and demonstrations provided on the DVD was informative					
6. The DVD and learning materials were of a high quality					
7. The associated learning materials were useful					
8. The additional learning materials were helpful					
9. There was an appropriate balance between theory and practice					
10. The practical case studies, activities and reflection exercises assisted learning					
11. The suggested assessment activities helped consolidate learning					
12. The <i>Record of Learning</i> provided a useful self/supervisor assisted assessment structure					
13. The Unit provided good opportunities for skill development					
14. The time required to complete the unit was reasonable and achievable for the clinician					

1. Was this unit presented in an interesting manner that allowed the clinician you supervise to remain engaged with the learning? Please explain your response.

2. Was the material presented pitched at the right learning level for the clinician you supervise? Please explain your response.

3. Was the material relevant and easy for the clinician you supervise to implement in their workplace?

4. What did you find most helpful about this particular unit for the clinician you supervise?

5. Did you find the reflection questions and practical learning tasks useful to work through in supervision? Please explain your response.

6. Were additional resources required for you to adequately supervise the clinician through the completion of this package? If so, what type of materials would you have found useful?

7. Please suggest additional areas of knowledge or skills that you feel would have been important to have included in this unit. Please identify where these resources could be accessed.

8. Would you replace any sections of this unit as you found them unhelpful, redundant or inaccurate? If yes, please expand on your answer.

9. Other comments.

Congratulations and well done for completing this unit of learning. We hope it has been useful and interesting.

Please now complete and return the evaluation/feedback forms. There is a form for you as the clinician and one for your supervisor to complete. Both of these forms are found in the section 'Evaluation/ Feedback Forms at end of this package.

Thank you
